User Guide

Congratulations on your purchase!

Dear Grixx product owner,

Thank you for your trust in Grixx and the purchase of the wireless in-ear headphones.

These comfortable lightweight wireless headphones enable you to listen to your favourite music during all kinds of activities, wire-free. The integrated microphone allows you to easily switch from listening to music and answering phone calls.

As an owner of a Grixx product you are entitled to our warranty, which is available to you for 2 years after your purchase. For any questions or problems please contact warranty@grixx.eu. We are happy to help you and solve any issues.

Enjoy many hours of listening to your favorite music, books, podcasts and calls with friends or family with this product.

Happy Times!

Short press  to pause/play the music
- **Volume up**
Long press + button
- **Volume down**
Long press – button

**Microphone,
on the back**

**Micro USB charging port,
on the side**

Charging

First time charging: Before using these wireless headphones, the battery needs to be fully charged.

Use the micro USB cable to connect the headphones to your PC or charger.

- Red light on: Charging in progress.
- Blue light on: Charging finished.

It will take about 2 hours to fully charge the battery.

Turn on/off the headphones

- **Turn on**
Press the  button about 3 seconds to power on.
You will hear “Power on” and the LED flashes blue.
- **Turn off**
Press the  button about 3 seconds to power off.
You will hear “Power off” and the LED flashes red for 2 seconds.

Battery low

If the battery runs low, you will hear a voice prompt “*Battery Low*”.

Grixx User Guide

Pairing headphones with Bluetooth devices

Use the Bluetooth pair (power on/off) button

Press and hold the  button for 3 seconds to enter pairing mode.

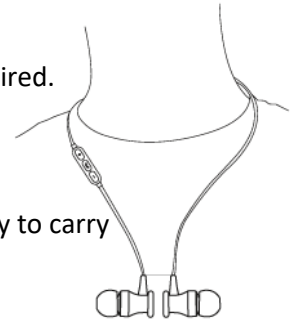

The LED indicator flashes red and blue alternately.

You will hear a voice prompt "Power on Pairing".

Activate Bluetooth on your phone and set it to search for new devices.

Select "Grixx In-ear"; the LED indicator stops flashing red and blue once successfully paired.

You will hear a voice prompt "Connected".

Magnetic click system

Built-in magnets let you attach the two earphones together, a comfortable and safe way to carry around when you are not using them.

Cleaning the headphones

It is important to clean the ear tips and earbuds of all Grixx in-ear headphones and headsets, including the fine mesh screens on each earbud.

This helps to ensure the best audio performance. Even a small amount of debris can cause the sound to fade or cut out altogether.

To clean the ear tips, remove them from the earbuds and wash them with mild soap.

Make sure you thoroughly rinse and dry them with a soft cloth (allow them to completely dry before reattaching them to the earbuds).

To clean the earbuds, remove the ear tips from the earbuds and lightly brush the mesh screens with a soft dry cloth (be careful not to push ear wax into the mesh surface or port hole).

Then re-attach the ear tips.

Caution

- Do not dismantle the product without expertise, this may damage the products or cause fire.
- Do not place the LED indicator directly in front of your eyes.
- Do not use in a hot humid environment.
- Do not put the product in water.
- Obstacles, such as walls, may reduce the Bluetooth range.
- Do not dispose the battery to fire, as it may cause explosion.
- To avoid breaking the cable, pull the plug - not the cable - when removing them from the charging source.
- Wrap the cable up carefully and neatly – do not fold - when you are not using them so it doesn't get bunched up and break.

Grixx User Guide

General instructions

Failure to follow the safety instructions can lead to dangerous situations or personal injury. Make sure to read the entire manual.

- Do not use this unit for anything other than its intended use.
- Do not use the product if it has been dropped or damaged in any way.
- Keep the unit out of reach of children.
- Do not disassemble the device into its component parts and do not try to repair it yourself. It does not contain any parts requiring maintenance and the guarantee expires in this case.
- Do not use the device when it shows visible damage or has become moist.

Exclusion of liability

The firmware and/or hardware may be changed at any time without prior notice. For this reason it is possible that parts of these instructions, technical data and images in this documentation differ slightly from the product in your possession. All points described in these instructions only serve the purpose of clarification and must not inevitably correspond to a certain situation. Legal claims cannot be made on the basis of these instructions.

Environmental information

All unnecessary packaging has been omitted. We have tried to make the packaging easy to separate into two materials: cardboard and plastic. The whole product packaging consists of materials which can be recycled and reused if disassembled by a specialized company. Please observe the local regulations regarding the disposal of packaging materials and old equipment.

This symbol on packaging signifies that the producer has made a financial contribution towards the recovery and recycling of packaging.

Disposal of your old product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

The battery is recyclable, do not dispose of the battery in fire as it may cause explosion.

This symbol on a product means that the product is covered by European Directive 2012/19/EU and cannot be disposed of with normal household waste. We strongly advise you to take your product to an official collection point. Inform yourself about the local separate collection system for electrical and electronic products. Follow local rules and never dispose of the product with normal household waste. Correct disposal of old products helps prevent negative consequences for the environment and human health.

Grixx User Guide

Compliance

Compliant with CE

This symbol means that the product is compliant with health, safety, and environmental protection standards for products sold within the European Economic Area. The product is manufactured in accordance with provisions imposed by EMC (Electromagnetic Compatibility) and RoHS (Restriction of Hazardous Substances) Directives. To minimize the environmental impact and take more responsibility to the earth we live on, the product complies with the restriction of SVHC (Substances of Very High Concern) and REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) regulated by the European Union.

Social Compliance

Grixx endorses the importance of equal and good working conditions for everyone within the production chain. That is why the manufacturer of this product is BSCI and /or SA8000 certified. This means that this product is designed and produced in a community that adheres to ethical sustainability and endeavors to protect the health, safety, and rights of the employees and environment in which they operate.

The producer follows the rules based, among others, on the United Nations' International Labor Organization (ILO) 'code of conduct' and the Human Rights Declaration. The main principles affiliated with the social compliance include:

- No discrimination
- No child labor
- Legal minimum wages
- Protection on the number of hours people have to work
- No forced labor
- Safe working environment
- Measures against corruption

Having the Grixx product manufactured in compliance with social sustainability values, where high standards are required of the supplier, helps contribute to the people involved in production of the product being treated fair, with dignity and respect.
