User Guide

Congratulations on your purchase!

Dear Grixx product owner,

Thank you for your trust in Grixx and the purchase of these children's headphones.

These comfortable lightweight headphones enables your children, grandchildren, nephews or nieces to listen carefree to their favourite music.

Carefree for you as well, as the headphones have a maximized volume, are made of non-toxic EVA-foam and are almost unbreakable due the used flexible materials.

As an owner of a Grixx product you are entitled to our warranty, which is available to you for 2 years after your purchase. For any questions or problems please contact warranty@grixx.eu. We are happy to help you and solve any issues.

We wish your kids many hours of listening to the happiest music with this product.

Happy Times!

About these instructions

Read these instructions carefully and please observe and heed all references made in these instructions to guarantee a long life and reliable use of the device. Please keep these instructions at hand and pass them on to other users of the device.

Important safety warnings

- **Choking Hazard - Warning**

This product may contain small parts which may be a choking hazard to children under 3; keep small parts away from children.

- **Warning**

Listening to music at full volume for an extended period of time may damage your hearing. Please be cautious with volume levels.

These headphones are specifically designed for young children, 3 years and up, and protect their ears from damage as a result of too loud music.

Grixx User Guide

Connecting

These headphones can connect to all kinds of (mobile) devices with 3.5mm Jack connector. Simply plug the connector into the port of your smartphone, tablet, laptop, MP3 player, game console, PC and more.

Size reducer

The size reducer gives the opportunity to adjust the headband so that it will fit young children, from 3 years up, as well.

Simply place the reducer on the headphones as shown in picture to reduce the size.

Remove the reducer to enlarge the headphones.

Cleaning the headphones

It's important to clean all headphones and headsets, this helps to ensure the best audio performance. Even a small amount of debris can cause the sound to fade or cut out altogether.

We advise to clean with a soft dry cloth, do not use water or detergent.

Grixx User Guide

Caution

- Do not dismantle the product without expertise, this may damage the products.
- Do not use in a hot humid environment.
- Do not put the product in water.
- To avoid breaking the cable, pull the plug - not the cable - when removing them from the charging source.
- Wrap the cable up carefully and neatly – do not fold - when you are not using them so it doesn't get bunched up and break.

General instructions

Failure to follow the safety instructions can lead to dangerous situations or personal injury. Make sure to read the entire manual.

- Do not use this unit for anything other than its intended use.
- Do not use the product if it has been dropped or damaged in any way.
- Do not disassemble the device into its component parts and do not try to repair it yourself. It does not contain any parts requiring maintenance and the guarantee expires in this case.
- Do not use the device when it shows visible damage or has become moist.

Exclusion of liability

The firmware and/or hardware may be changed at any time without prior notice. For this reason it is possible that parts of these instructions, technical data and images in this documentation differ slightly from the product in your possession. All points described in these instructions only serve the purpose of clarification and must not inevitably correspond to a certain situation. Legal claims cannot be made on the basis of these instructions.

Environmental information

All unnecessary packaging has been omitted. We have tried to make the packaging easy to separate into two materials: cardboard and plastic. The whole product packaging consists of materials which can be recycled and reused if disassembled by a specialized company. Please observe the local regulations regarding the disposal of packaging materials and old equipment.

This symbol on packaging signifies that the producer has made a financial contribution towards the recovery and recycling of packaging.

Disposal of your old product

Your product is designed and manufactured with high quality materials and components, which can be recycled and reused.

Compliance

Compliant with CE

This symbol means that the product is compliant with health, safety, and environmental protection standards for products sold within the European Economic Area. The product is manufactured in accordance with provisions imposed by EMC (Electromagnetic Compatibility) and RoHS (Restriction of Hazardous Substances) Directives. To minimize the environmental impact and take more responsibility to the earth we live on, the product complies with the restriction of SVHC (Substances of Very High Concern) and REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals) regulated by the European Union.

Social Compliance

Grixx endorses the importance of equal and good working conditions for everyone within the production chain. That is why the manufacturer of this product is BSCI and /or SA8000 certified. This means that this product is designed and produced in a community that adheres to ethical sustainability and endeavors to protect the health, safety, and rights of the employees and environment in which they operate.

The producer follows the rules based, among others, on the United Nations' International Labor Organization (ILO) 'code of conduct' and the Human Rights Declaration. The main principles affiliated with the social compliance include:

- No discrimination
- No child labor
- Legal minimum wages
- Protection on the number of hours people have to work
- No forced labor
- Safe working environment
- Measures against corruption

Having the Grixx product manufactured in compliance with social sustainability values, where high standards are required of the supplier, helps contribute to the people involved in production of the product being treated fair, with dignity and respect.
